- Morning TV-10 students will participate in **Technology of Disney Parks**. Central to each attraction and themed land within Disney Parks is a story, and through innovative technology, we are able to tell those stories in new and exciting ways. In this engaging, interactive course, students will work in groups while getting an inside look at how our Disney Imagineers dream, design, and use technology to enhance the Guest experience by immersing them in our stories. From audio-animatronics to light and sound effects, students will learn why technology is the most valuable and most challenging tool to integrate into daily theme park operations. *(After your application is accepted by Walt Disney World® Youth Programs, your workshop will be scheduled closer to your travel dates)*
- Morning The band and the orchestra will participate in **Soundtrack Sessions: Instrumental** and experience the excitement, focus, and fast-paced energy of a professional recording studio environment. During this workshop participants will sight-read and work directly with industry professionals to create a truly magical ensemble piece. The experience culminates with a screening of their recorded work set to Disney film footage. *(After your application is accepted by Walt Disney World® Youth Programs, your workshop will be scheduled closer to your travel dates)*
- Morning The choir will participate in **Soundtrack Sessions: Vocal** and experience the excitement, focus, and fast-paced energy of a professional recording studio environment. During this workshop participants will sight-read and work directly with industry professionals to create a truly magical ensemble piece.
